Leg & Frame Finishings

Metal, Ash and Wooden Legs

Steel stands as one of the most commonly used metals in the world across industries. New developments changed the nature of steel and allowed producers to create specialized items. The robust metal can easily be combined with warm materials like wood, using soft finishing techniques for a vigorous finishing touch. The hands of our craftsmen incorporate different types of steel and metal in the products we make.

We have a few chairs with ash frames, for these frames you can choose five different ash wooden colours:

Graphite

Coffee
For Beech & Ash

White Wash

Natural

New Weathered

Eight different colours are available for all wooden chair legs:

Black

Carbon

Old Bassano

Cuban Antique

Light Brown

Weathered

Mocca Black

English

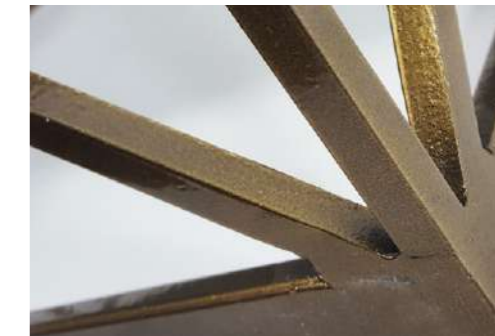

Seven different metal leg colours:

Sanded

Natural Black

Painted Brass

Tamponata

Matt Black

Brass Antique

Painted Natur Grey

Table Top Finishings

Wood

Pure Furniture's Wood collection is well known for its carefully selected Oak BC and Rustical Oak, with unique colour shadings and robust, vivid characteristics.

Using ancient techniques and skills of finishing by craftsmen, such as scraping and distressing, our Rustical Oak is transformed into a timeless and authentic piece of art.

If you prefer a smoother surface, our Oak BC collection could be more suitable. This is in fact the 2nd layer of Reclaimed oak, with less cracks and colour shadings.

Both solid oak types can be finished in all available colours with Silverback grey as an acceptance on the rule.

*Silverback can only be achieved on Oak BC. The finish is achieved by a carefully monitored process, where certain chemicals in the wood react with special blend of stains. As a result, every item with this finish will be a unique piece of art.
